

CATALOGUE OF BLS FIELD MEETINGS & WORKSHOPS

Peter Lambley & Steve Price

version 25.02, 29 Dec 2023, edited by Steve Price

updated to include meeting reports in BLS Bulletin no.133, Winter 2023

The list below is of known BLS field meetings and workshops starting with the first in 1959. The entries were taken mostly from BLS Bulletins. Where a report of a meeting has been published in the *Lichenologist* or the *BLS Bulletin* the volume / issue is identified. The bulk of the work in extracting historic details was performed by Peter Lambley.

The list may not be comprehensive. Should any member have details of any of the unreported meetings or of any meeting that has been omitted from the list, even if it is only a list of attendees or a list of species, please send them to the Field Meetings Secretary, or even better write them up for publication in the *Bulletin*. Lists of species will be contributed to the BLS database and this list of meetings will be maintained and updated for future re-publication.

Year	Dates	Venue	Report Published
1959	7 – 12 Apr	Chagford, Devon	<i>Lichenologist</i> 1 : 115-118 (1959)
